

Jeremy Panasuk

You pioneered the *title*. I have been doing the work — factory floor to boardroom — since 2005.

19/20 CRISIS ACCOUNTS RECOVERED	8h→1h DAWN FOODS MANUFACTURING	7,000h MICRON FAB · ZERO DOWNTIME	+200% MERCEDES LONGEST JOBS	~27× LOCAL DECODE AFTER ROUTING
------------------------------------	-----------------------------------	--------------------------------------	--------------------------------	------------------------------------

Warp Speed FDSEs sit with manufacturers from the line to the exec table and make unprepared data drive operations. That is Informatica IPS/SEAL: embed, find the bottleneck under the symptom, leave a system the next shift can run. Last 24 months: private RTX 4070 lab, measured agents, bounded MCP. Travel was the job for eleven years. I will be where the line is.

01 — CORE FDSE MOTION

Floor + boardroom Dawn, Micron, Mercedes, Toyota, PepsiCo, Cargill oils plants, Horizon Milling, Ace, Kohl's. BNY Mellon with CEO Sohaib Abbasi. Kohl's through senior VPs. Same dialect at 6 a.m. and 4 p.m.	Architecture + ship World-first Grid/HA + DR, 20+ nodes, four regions. PepsiCo v9→v10 zero data loss. Own the path from ideation to production. Playbooks so the next plant is faster.	Data + AI Teradata, Hadoop, AS/400 CDC, DB2, Redshift. Python telemetry. Production WhatsApp agents. Models accelerate. Manufacturing data still decides whether they land.
---	--	---

02 — INDEPENDENT LAB · AUG 2024 — PRESENT

4070 Tabby Tavern Stack Private LLM on RTX 4070 / WSL2: TabbyAPI EXL3, Ollama, Open WebUI, CUDA. huggingface.co/jpanasuk/tabby-tavern-stack	27× Local Grid Suite Discover, bench decode/prefill, GPU routing, SQLite, CLI + PDF. 1.39 → 37.47 tok/s after routing. Warm stream ~76 tok/s.
MCP Dockroot-MCP Agents see Docker/network. They do not get host-root. Measure the boundary, then hand the agent the boundary.	Agents OpenClaw + pipeline Systems → architect → validator. Production WhatsApp agents, 10+ skills. Multi-provider routing with cloud failover.

Also retained through 2025 for Informatica production rescue: Grid/HA, PowerExchange CDC, IDQ, v9/v10, SOAP/REST, install-to-go-live.

<i>Two years of laydown. Not idle — a rebuild. I stood up the lab, measured it, published it, and set one goal: put that stack on American operations that still run on journals, SOAP, and tribal knowledge. Warp Speed is that job.</i>		
THE REBUILD Off the conveyor on purpose. Agents, bounded MCP, inference that reports numbers. Same diagnostic playbook as the parachute years. New substrate.	THE SITUATION U.S. person. Wisconsin home. High autonomy. 25% travel is below the tempo I already lived. Hybrid New York + customer sites: I show up on the floor.	THE WINDOW Available now. Not splitting attention with a job I am trying to leave. Ready to go in alone and come back with something that runs.

HOOR ONE ON THE FLOOR I do not ask for a clean schema. I walk the line, find the unofficial definition of a good part, and pull the journal the MES does not see. What broke last Tuesday at 2 a.m. is the ontology. Warp Speed's job is to make that ontology executable. That is the work I already do.	TWO DAYS, NOT THREE MONTHS Milwaukee insurer: platform dark for three months. I closed it in two days — one buried IBM DB2 driver setting. Palantir calls it increasing the pain threshold. I call it reading the evidence before touching the config. The line does not care about your architecture diagram.
---	--

AI now writes code faster than engineers. American plants still run on clipboards, cold calls, and the guy who has been there 26 years. I am the conversion layer. I am not applying to learn FDSE. You named my job.

03 – SR. SOFTWARE DEVELOPER, TALEND · MOBE

Minneapolis · production data integration

Talend 8 on a live platform. GitLab CI/CD. Redshift + SQL Server. 99.99% stability. On-call incident command.

Jul 2023 – Aug 2024

04 – INFORMATICA SPECIALIST · TATA CONSULTANCY SERVICES

PepsiCo · Ameriprise · Ace Hardware

PepsiCo Grid/HA + DIH across NA/LATAM. v9→v10 zero data loss. Teradata → Big Data (~40% analytics). Ameriprise IDQ / EDC / Axon. Ace Hardware PowerCenter → Big Data with business + QA.

Mar 2020 – Dec 2021

05 – CONSULTING MANAGER / SEAL · INFORMATICA · JUN 2008 – OCT 2019

Analyst → Consulting Manager. Teams of 7–14. v7–v10 upgrade specialist. Consultant of the Year runner-up (2016). Parachute closer: 20 in, 19 recovered. This is FDSE with a different logo on the badge.

8h→1h	Dawn Foods — manufacturing CDC on AS/400. Featured on informatica.com.	7,000h	Micron — fab EDW. \$3M extensions. Zero downtime.
+200%	Mercedes-Benz — longest workflows. Playbook adopted by TCS.	\$800k	Toyota — Engine Management go-live. All consultants 5/5.
20+ nodes	MF Global — world-first Grid/HA + DR. India, UK, NY, Chicago.	\$2.3M+	BNY Mellon — Grid/HA with senior VPs and CEO.
\$10M+	JPMorgan Chase — DW / CoE roadmaps. ELA + PS.	\$2M	Kohl's — v9 Grid/HA. AIX → commodity. Through S-VPs.
\$600k	Smith & Nephew — FDA-validated platform.	3,000h	Navy Federal — architecture through go-live.
–50%	West Bend Mutual — real-time SOAP/XML cut in half.	v9	Harvard — Version 9. Off-load Solaris through hypercare.

Sr. Integration Engineer · Prime Therapeutics

Medicare + MTM data marts. Delivered above grade-level.

Jan 2007 – Jun 2008

Business Analyst, Oils Plants · Integration Associate · Cargill

Oils plants: business analyst overseeing plant ERP implementation — live operations, not a sandbox. Demantra (separate): demand planning. Won the Quarterly Award for Excellence, Oct 2006, for Demantra. Horizon Milling: production visibility on a time dimension so plants and accounting could see the same facts — CFO Award 2005 (six / year). 24/7 warehouse/ODS.

Dec 2004 – Jan 2007

“His knowledge not only of the Informatica suite but also at the operating system level has been truly invaluable.”

DAWN FOODS · CLIENT

“He’s a rock star out at Dawn. The customer loves him and the sales team has been leaning on him hard.”

INFORMATICA IPS · SALES

“You have sent one of the best that Informatica has to offer in Jeremy.”

MF GLOBAL · INFRASTRUCTURE

“I trusted that Jeremy would deliver, with quality... exceeded the expectations at someone of his grade level.”

PRIME THERAPEUTICS

UNSTRUCTURED INSTINCTS · SECRET KEY / FIREWORKS FOREVER · 1996–2004

Class B shooter. \$800K+ seasonal inventory. No schema, no second take. Customer loyalty is priceless.

06 – STACK · REQUIREMENTS
