

JEREMY PANASUK

THE CLOSER

The closer they parachute into burning data platforms.

Now he builds local AI stacks that measure.

WHO I AM

I build systems that stay alive under pressure. Twenty-two years of Fortune-100 platforms taught me to read the evidence before touching the config, find the bottleneck beneath the symptom, and leave a team that can run it. Last 24 months: private RTX 4070 lab, measured ~27× local decode, production agents, bounded MCP — same diagnostic playbook as Informatica Grid/HA. Operating line: customer satisfaction is worthless; customer loyalty is priceless.

INDEPENDENT LAB · AUG 2024 – PRESENT

4070 RTX Tabby Tavern Stack

6-container Compose + CUDA on RTX 4070 / WSL2: TabbyAPI EXL3, Ollama, Open WebUI, SillyTavern, SearXNG, Redis. Flash-attention, q8 KV, GPU passthrough. Forced CUDA offload, VRAM pre-warm, LiteLLM failover. HF: huggingface.co/jpanasuk/tabby-tavern-stack.

27× Local Grid Suite

Operator telemetry: discover, bench decode/prefill, GPU routing, SQLite, CLI + PDF. Checked-in: 1.39 tok/s → 37.47 tok/s after routing. Warm stream ~76 tok/s. github.com/jpanasuk-netizen/local_grid_suite.

MCP Dockroot-MCP

Agents see Docker/network. They do not get host-root. Same Grid/HA instinct: measure the boundary, then hand the agent the boundary — not the box. Image: hub.docker.com/r/jpanasuk/dockroot-mcp.

Agents Pipeline + OpenClaw

Systems → architect → validator on local Ollama: structured output, repair retries, collision + regression. OpenClaw WhatsApp agents, 10+ skills. Multi-provider routing with cloud failover.

Also retained through 2025 for Informatica production rescue: Grid/HA, PowerExchange CDC, IDQ, v9/v10, SOW/sizing, SOAP/REST, install-to-go-live. Ivy Funds Grid/HA · Fed Reserve Philadelphia Windows → Unix plan · Farmers Insurance Linux SOAP/REST · Giesecke & Devrient Developer platform (REST/SOAP, VMs, GitHub, Docker).

THE FIRE DEPARTMENT — THE WORK MOST ENGINEERS AVOID

Parachuted into 20 troubled accounts. Recovered 19. Milwaukee insurer: three-month outage closed in two days — one buried IBM DB2 driver setting. Mercedes-Benz +200% on the longest workflows. West Bend Mutual -50% on real-time SOAP/XML. Tuning frameworks adopted by whole client teams. Lectures at conferences and user groups on v7–v10 upgrades. Walk into the fire, find the root cause, ship the fix before C-level stops trusting you.

Sr. Software Developer, Talend / Data Integration · MOBE, Minneapolis

Jul 2023 – Aug 2024

Simple through complex Talend 8 mappings on a live production platform. GitLab CI/CD migrations. Redshift + SQL Server. 99.99% stability. On-call incident command and root-cause writeups the next morning.

Informatica Specialist · Tata Consultancy Services

Mar 2020 – Dec 2021

PepsiCo Grid/HA + DIH across NA/LATAM. Led v9 → v10 with zero data loss. Teradata → Big Data (~40% analytics lift). Follow-the-sun.
Ameriprise EDG: IDQ, EDC, Axon. 200+ critical data elements. 24×7. **Ace Hardware** PowerCenter → Big Data objects and runtimes with business + QA.

THE RECEIPTS · INFORMATICA SEAL · JUN 2008 – OCT 2019

Analyst → Consulting Manager. Teams of 7–14. \$4M+ services in two years. Consultant of the Year runner-up (2016). v7–v10 upgrade specialist. Parachute closer: 20 in, 19 recovered.

SEAL TEAM	WORLD-FIRST GRID/HA + DR	19 / 20 RECOVERED	ZERO-DATA-LOSS CUTOVERS	TEAMS 7-14
\$2.3M+	BNY Mellon — Grid/HA with senior VPs and CEO Sohaib Abbasi.	8h → 1h	Dawn Foods — PWX CDC on AS/400 remote journals. Featured on informatica.com.	
20+ nodes	MF Global — world-first Grid/HA + DR on RHEL GFS. India, UK, NY, Chicago. Owned global DR.	7,000h	Micron — 2,080 → 7,000 hours. \$3M extensions. Zero downtime. Consultant of the Year runner-up.	
\$10M+	JPMorgan Chase — DW / CoE roadmaps to senior management. ELA + PS.	\$2M	Kohl's — v9 Grid/HA capacity. AIX → commodity. Through senior VPs.	
+200%	Mercedes-Benz — longest workflows rescued. TCS trained on the path.	\$800k	Toyota — Engine Management go-live. All consultants 5/5.	
\$600k	Smith & Nephew — FDA-validated platform. Licensing contention resolved.	3,000h	Navy Federal — Informatica + BI V1 from architecture through go-live.	
–50%	West Bend Mutual — real-time SOAP/XML runtime cut in half.	v9	Harvard — Version 9. Off-load Solaris 8.1.1. Resource plan through hypercare.	

Also: Merrill / Time Inc. SFDC lift-shift. Ivy Funds Grid/HA. Fed Reserve Philly. Farmers Linux SOAP/REST. Giesecke & Devrient — REST/SOAP, VMs, GitHub, Docker. Micron Fast Clone + Financial Force. Federal Reserve / NFCU / banking security playbooks. Cargill CFO Award Sept 2005 (six / year). Quarterly Excellence Oct 2006 — Demantra.

“Jeremy has been a pleasure and an asset to work with. His knowledge not only of the Informatica suite but also at the operating system level has been truly invaluable.”

DAWN FOODS · CLIENT

“It is the belief of the infrastructure staff that you have sent one of the best that Informatica has to offer in Jeremy.”

MF GLOBAL · INFRASTRUCTURE

“He’s a rock star out at Dawn. The customer loves him and the sales team has been leaning on him hard.”

INFORMATICA IPS · SALES

“I trusted that Jeremy would deliver, with quality. He exceeded the expectations at someone of his grade level.”

PRIME THERAPEUTICS

Sr. Integration Engineer · Prime Therapeutics

Jan 2007 – Jun 2008

Technical lead, Medicare + MTM data marts and EDW test lead. Analyst → Sr. Analyst on a 4/5 review. Internal 5-star on trust.

Integration Associate · Cargill

Dec 2004 – Jan 2007

Demantra forecasting + SAS activity-based costing marts. 24/7 support across 20+ warehouses/ODS. CFO Award Sept 2005. Quarterly Excellence Oct 2006.

ORIGIN · SECRET KEY / FIREWORKS FOREVER · 1996–2004

St. Croix Falls, WI. Class B shooter: load, wire, shoot, tear down. Inventory Manager — \$800K+ seasonal stock, turnover under 3 months, 4 full-time sales, six years of profit, ~\$60k wholesale. Weekends after Cargill started Dec 2004. This is where the loyalty line was forged.
